EQAO tracked the progress of students who wrote the primary-division assessment in 2011, when they were in Grade 3, and the junior-division assessment in 2014, when they were in Grade 6. There were 23 students at the time of the 2014 junior-division assessment. The pie charts below show how students performed on the 2014 assessments compared to their assessment results in 2011. The percentages are based on all tracked students in the cohort, including those who participated, those who were exempted and those who provided no work to be scored.
