Previously Eligible Students

Ontario Secondary School Literacy Test, 2016–2017

Board: Windsor-Essex Catholic DSB (67024)

On behalf of EQAO, I am pleased to provide you with the results of the 2016–2017 Ontario Secondary School Literacy Test (OSSLT). This report includes the 2016–2017 school and board results, as well as demographic and attitudinal information, which provides context for interpreting achievement results.

By developing assessments that gauge student achievement against the learning expectations outlined in *The Ontario Curriculum*, EQAO ensures that every student in Ontario’s school system is assessed using the same yardstick at key stages in his or her schooling. In doing so, EQAO is able to provide reliable and objective data at the individual student, school and board levels that support educators in their professional practice.

OSSLT results are a powerful tool that helps educators, parents and students identify achievements, challenges and strategies for improvement. In an increasingly knowledge-based economy, literacy is a critical foundation for success in school and life outside school. For this reason, the OSSLT is particularly valuable as an indicator of whether Ontario students have acquired the fundamental reading and writing skills across all subjects up to the end of Grade 9.

Of course, the information that EQAO provides is not limited to student achievement results and also includes contextual, attitudinal and behavioral data. This wide range of data enables school and board communities to gain richer insights into students’ learning. By using EQAO data in conjunction with classroom and school-board information, educators across the province have been able to make evidence-based decisions in their planning and to monitor the progress of their initiatives. Because of this, EQAO data have served as a catalyst for improving student achievement since the inception of the agency, in 1996.

We hope you will find this report useful. It has been designed to assist you in your conversations about improving student learning. We look forward to continuing our partnership with you as we all work toward helping students meet, at the minimum, the provincial standard.

Sincerely,

Norah Marsh
Chief Executive Officer
Education Quality and Accountability Office

PREVIOUSLY ELIGIBLE STUDENTS, 2016–2017: PARTICIPATION RATE AND ACHIEVEMENT RESULTS

Ontario Secondary School Literacy Test, 2016–2017

TIPS

Each board is unique. To appreciate the distinctive character of a board, look at the contextual information to understand the features and characteristics of the community it serves.

This test captures the performance of students at one point in time each year. Consider the results along with other information about students' performance.

Exercise caution when interpreting results for small boards as differences may look exaggerated. For example, in a group of 30 students, a difference of 10% represents only three students.

EQAO values students' privacy. Results are not reported publicly for boards where fewer than 10 students participated because it might be possible to identify individual students.

WHAT IS IN THIS REPORT?

This report shows how well students at this board have met the minimum standard for literacy to the end of Grade 9 as set out in *The Ontario Curriculum*.

This report includes

- results for this board compared to the province and
- information about the characteristics of the students who participated.

Specifically, you will find

- summary graphs showing participation and success rates;
- detailed tables and graphs showing results for various groups of students, e.g., by gender, English language learners;
- student questionnaire results; and
- an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- Examine the contextual information to understand the similarities and differences between the board and the province. Consider the challenges that any differences might present.
- Examine the board results.
 - Are these results consistent with what you would expect?
 - How do these results compare to the provincial results?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- Speak to the board chair about the goals for improving student performance.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments.

Ontario Secondary School Literacy Test, 2016–2017

EXPLANATION OF TERMS	
First-Time Eligible Students	First-time eligible students are working toward an Ontario Secondary School Diploma (OSSD). These students are expected to write the Ontario Secondary School Literacy Test (OSSLT) for the first time in the spring of their second year of secondary school; this also applies to students who entered Grade 10 from out of province.
Previously Eligible Students	Previously eligible includes all students who were absent or deferred, or were unsuccessful during one or more previous administrations; were previously exempted but are now working toward an OSSD; entered Grade 11 or 12 from out of province or enrolled in an adult education program and began Grade 9 in or after the 2000–2001 school year.
All Eligible Students	This method of reporting provides percentages based on all students in the cohort who are working toward an OSSD. The only students excluded are those who are not working toward an OSSD (exempt students).
Fully Participating Students	This method of reporting provides percentages based on students for whom there is work for both sessions of the administration of the OSSLT and who were assigned an achievement result (successful, not successful). Students who are not working toward an OSSD, those who were absent and those who were deferred are excluded.
Successful	Students who fully participated in the OSSLT and received a score that met the expected standard.
Not Successful	Students who fully participated in the OSSLT and received a score that did not meet the expected standard.
Absent	Students who did not submit work for one or both sessions due to absence or for other reasons.
Deferred	Students' participation in the OSSLT can be deferred under several circumstances, as outlined in EQAO's <i>How to Administer the OSSLT</i> . A student is categorized as deferred only if the school indicates a deferral. If a student completed any portion of the OSSLT, he or she is not categorized as deferred.
OSSLC	Students are placed in this category of reporting if the school indicated that the students would be fulfilling the literacy requirement through the Ontario Secondary School Literacy Course (OSSLC). For details about the OSSLC, see the Ministry of Education Web site (www.edu.gov.on.ca). All students identified as planning to fulfill the literacy requirement through the Ontario Secondary School Literacy Course (OSSLC) are reported as previously eligible students. If a student completed any portion of the OSSLT, he or she is not categorized as OSSLC.
Exempted	Students can be exempted from the OSSLT only if they are not working toward an OSSD. A student is categorized as exempted only if the school indicates that the student is exempted. If a student completed any portion of the OSSLT, he or she is not categorized as exempted.
English Language Learners	Students who have been identified by the school in accordance with <i>English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12</i> (2007).
English Language Learners Receiving Special Provisions	These are English language learners identified by the school as receiving special provisions. Detailed information about special provisions is available in EQAO's <i>How to Administer the OSSLT</i> . Students reported in this category are those who participated in the March administration, which offered all permitted special provisions. These data was collected through EQAO's Student Data Collection system.
Students with Special Education Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee (IPRC), as well as students who have an Individual Education Plan (IEP). Students identified solely as gifted are not included.
Students with Special Education Needs Receiving Accommodations (excluding gifted)	These are students with special education needs identified by the school as receiving accommodations. Students identified solely as gifted are not included. Detailed information about accommodations are available in the Ministry of Education's <i>Ontario Schools, Kindergarten to Grade 12: Policy and Program Requirements</i> (2016) and EQAO's <i>How to Administer the OSSLT</i> . Students reported in this category are those who participated in the March administration, which offered all permitted accommodations. These data was collected through EQAO's Student Data Collection system.
N/R	"Not reported" indicates that the number of students participating (fewer than 10 in a group) or responding to the Student Questionnaire (fewer than six in a group) is so small that identification of individual student results might be possible; therefore results are not reported.
N/D	"No data available" is used to indicate that there were no students in the group or year specified.
W	Results are being withheld by EQAO. For further information, please contact personnel at the board.
