

School Report

Grade 9 Assessment of Mathematics, 2014–2015

School: Keswick High School (919233)
Board: York Region DSB (66095)

On behalf of EQAO, I am pleased to provide you with the results of the 2014–2015 Grade 9 Assessment of Mathematics.

This report includes the 2015 results, as well as results for previous years, so you can track progress over time. You'll also find demographic and attitudinal information, which provides context for interpreting the achievement results. This school year was unique in that not all students participated in the provincial assessments because of labour action in the English-language public school system. As a result, there is no provincial-level information in this report.

Assessing all students against a provincial standard provides reliable and objective data at the student, school and board levels and helps uncover important trends. By analyzing EQAO data alongside other evidence, school boards and schools can make informed decisions about how to improve student learning and can track their progress toward their goals.

At EQAO, we strongly believe that good information—in the hands of dedicated professionals and school communities—can help to identify areas for improvement and inform targeted interventions. We are pleased to provide reliable and useful information about student achievement from Ontario's provincial assessment program for all partners in the education system.

Sincerely,

Bruce Rodrigues
 Chief Executive Officer
 Education Quality and Accountability Office

TIPS

The applied and academic mathematics courses are different and should be considered separately.

Note: Students in locally developed courses do not participate in these assessments.

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

This assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 30 students, a difference of 10% represents only three students.

Trends may be difficult to identify or to interpret. This is especially true when groups are small or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Beginning in 2012–2013, results are not reported publicly for schools where fewer than 10 students participated because it might be possible to identify individual students. Prior to 2012–2013, results were not reported publicly for schools where fewer than 15 students participated.

ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations for either the applied or academic mathematics program to the end of Grade 9. Students complete two booklets that allow them to show what they know in mathematics. The assessment is based on *The Ontario Curriculum: Mathematics, Grades 9 and 10*.

This report includes

- ◆ results for this year;
- ◆ a comparison of results of the current and previous administrations to aid in monitoring improvement and
- ◆ information about the characteristics of the students who participated.

Specifically, you will find

- ◆ summary graphs showing the percentage of students achieving the provincial standard in either applied or academic mathematics;
- ◆ detailed tables and graphs showing results for all levels of achievement, participation information and results for gender
- ◆ student questionnaire results and
- ◆ an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between this school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for applied and academic mathematics.
 - Are these results consistent with what you would expect?
 - How do the school results compare to the board and province; the board results compare to the province?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to the school or board staff about the goals for school improvement related to mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 9 students in applied and academic mathematics take part in this assessment across Ontario. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

Learn more about us at www.eqao.com.

Strongly Disagree/Disagree
 Neither agree nor disagree
 Agree/Strongly agree

STUDENTS' ATTITUDES TOWARD MATHEMATICS

How much do you agree or disagree with the following statements?	Percentage of Students*	Number of students who answered "agree" or "strongly agree"
I like mathematics.		14
I am good at mathematics.		30
I am able to answer difficult mathematics questions.		16
Mathematics is one of my favourite subjects.		10
I understand most of the mathematics I am taught.		42
Mathematics is an easy subject.		15
I do my best in mathematics class.		70
The mathematics I learn now is useful for everyday life.		23
The mathematics I learn now helps me do work in other subjects.		25
I need to do well in mathematics to study what I want later.		29
I need to keep taking mathematics for the kind of job I want after I leave school.		28

Not at all confident
 Somewhat confident
 Confident
 Very confident

How confident are you that you can answer mathematics questions related to the following?

How confident are you that you can answer mathematics questions related to the following?	Percentage of Students*	Number of students who answered "very confident"
number sense (e.g., operations with integers, rational numbers, exponents)		3
algebra (e.g., solving equations, simplifying expressions with polynomials)		6
linear relations (e.g., scatter plots, lines of best fit)		7
measurement (e.g., perimeter, area, volume)		18
geometry (e.g., angles, parallel lines)		6

* Percentages may not add up to 100, due to rounding or to ambiguous or blank responses. Where there is no number in a bar, the percentage of responses is smaller than four.

DOING MATHEMATICS									
Percentage of students indicating they do the following “very often” when studying mathematics or working on a mathematics problem: †									
I connect new mathematics concepts to what I already know about mathematics or other subjects.	2%	0%	5%	12%	12%	13%	EC	EC	EC
I check my mathematics answers to see if they make sense.	20%	24%	14%	30%	34%	27%	EC	EC	EC
I apply new mathematics concepts to real-life problems.	2%	0%	5%	6%	4%	7%	EC	EC	EC
I take time to discuss my mathematics assignments with my classmates.	8%	8%	8%	11%	12%	10%	EC	EC	EC
I look for more than one way to solve mathematics problems.	8%	8%	8%	14%	12%	16%	EC	EC	EC
Percentage of students indicating they complete their mathematics homework at the following frequencies: ‡									
I am not usually assigned any mathematics homework	1%	2%	0%	1%	1%	1%	EC	EC	EC
Never or almost never	13%	6%	22%	6%	3%	8%	EC	EC	EC
Sometimes	21%	14%	30%	21%	17%	25%	EC	EC	EC
Often	33%	37%	27%	38%	37%	39%	EC	EC	EC
Always	21%	31%	8%	31%	39%	23%	EC	EC	EC

* Includes only students for whom gender data were available.

† Other response options were “never or almost never,” “sometimes” and “often.”

‡ Percentages may not add up to 100, due to rounding or to ambiguous or blank responses.

Grade 9 Assessment of Mathematics, 2014–2015, Academic Course

STUDENT QUESTIONNAIRE RESULTS FOR SCHOOL, BOARD AND PROVINCE (all students, female, male)	School			Board			Province		
	All Students (# = 86)	Female* (# = 49)	Male* (# = 37)	All Students (# = 6 972)	Female* (# = 3 490)	Male* (# = 3 482)	All Students (# = EC)	Female* (# = EC)	Male* (# = EC)
OUT-OF-SCHOOL ACTIVITIES									
Percentage of students indicating they do the following “every day or almost every day” when they are not at school: †									
I read by myself.	21%	29%	11%	23%	29%	17%	EC	EC	EC
I use the Internet.	71%	73%	68%	90%	92%	89%	EC	EC	EC
I play video games.	23%	6%	46%	24%	7%	41%	EC	EC	EC
I participate in sports or other physical activities.	36%	24%	51%	41%	33%	49%	EC	EC	EC
I participate in art, music or drama activities.	19%	20%	16%	21%	27%	15%	EC	EC	EC
I participate in other clubs or organizations.	6%	6%	5%	11%	10%	12%	EC	EC	EC
I volunteer in my community.	6%	8%	3%	3%	4%	3%	EC	EC	EC
I work at a paid job.	8%	8%	8%	2%	1%	2%	EC	EC	EC
SCHOOLS ATTENDED									
Percentage of students indicating the number of schools they attended from kindergarten to Grade 8: ‡									
1 school	56%	59%	51%	28%	28%	28%	EC	EC	EC
2 schools	17%	18%	16%	33%	34%	33%	EC	EC	EC
3 schools	6%	4%	8%	21%	20%	21%	EC	EC	EC
4 schools	5%	4%	5%	9%	9%	10%	EC	EC	EC
5 or more schools	7%	8%	5%	6%	7%	6%	EC	EC	EC
LANGUAGES SPOKEN									
Percentage of students indicating that they speak the following languages at home: †									
Only English/Mostly English	86%	84%	89%	59%	60%	58%	EC	EC	EC
Another language (or other languages) as often as English	6%	8%	3%	25%	25%	24%	EC	EC	EC
Mostly another language (or other languages)/ Only another language (or other languages)	0%	0%	0%	14%	13%	16%	EC	EC	EC
Percentage of students indicating the languages people speak to them at home: †									
Only English/Mostly English	88%	88%	89%	47%	48%	46%	EC	EC	EC
Another language (or other languages) as often as English	1%	2%	0%	21%	21%	20%	EC	EC	EC
Mostly another language (or other languages)/ Only another language (or other languages)	1%	2%	0%	28%	27%	29%	EC	EC	EC

* Includes only students for whom gender data were available.

† Other response options were “never,” “1 or 2 times a month” and “1 to 3 times a week.”

‡ Percentages may not add up to 100, due to rounding or to ambiguous or blank responses.

Grade 9 Assessment of Mathematics, 2014–2015, Academic Course

STUDENT QUESTIONNAIRE RESULTS FOR SCHOOL, BOARD AND PROVINCE (all students, female, male)	School			Board			Province		
	All Students (# = 86)	Female* (# = 49)	Male* (# = 37)	All Students (# = 6 972)	Female* (# = 3 490)	Male* (# = 3 482)	All Students (# = EC)	Female* (# = EC)	Male* (# = EC)
USE OF THE ASSESSMENT IN CLASS MARKS									
Percentage of students indicating their teacher will count some or all parts of the Grade 9 Assessment of Mathematics as part of their class mark: †									
Yes	56%	55%	57%	75%	79%	72%	EC	EC	EC
No	0%	0%	0%	1%	<1%	1%	EC	EC	EC
Don't know	35%	35%	35%	21%	19%	24%	EC	EC	EC
Percentage of students indicating they were told how much the assessment will count as part of their class mark: ††									
	All Students (# = 48)	Female* (# = 27)	Male* (# = 21)	All Students (# = 5 260)	Female* (# = 2 742)	Male* (# = 2 518)	All Students (# = EC)	Female* (# = EC)	Male* (# = EC)
Yes	100%	100%	100%	98%	98%	98%	EC	EC	EC
No	0%	0%	0%	2%	2%	2%	EC	EC	EC
Percentage of students indicating that counting the Grade 9 Assessment of Mathematics as part of their class mark motivates them to take the assessment more seriously: ††									
	All Students (# = 48)	Female* (# = 27)	Male* (# = 21)	All Students (# = 5 260)	Female* (# = 2 742)	Male* (# = 2 518)	All Students (# = EC)	Female* (# = EC)	Male* (# = EC)
Yes	81%	89%	71%	73%	76%	70%	EC	EC	EC
No	8%	7%	10%	12%	9%	16%	EC	EC	EC
Undecided	6%	4%	10%	14%	15%	14%	EC	EC	EC

* Includes only students for whom gender data were available.

† Percentages may not add up to 100, due to rounding or to ambiguous or blank responses.

‡ Numbers and percentages are based on the number of students who indicated that their teacher will count some or all parts of the assessment as part of their class mark.

Grade 9 Assessment of Mathematics, 2014–2015

EXPLANATION OF TERMS

All Students	Results are reported for all students in the course.
Participating Students	Results are reported only for those students who took part in the assessment (excludes the "no data" category).
Provincial Standard	The Ministry of Education, in <i>The Ontario Curriculum, Grades 9 and 10: Mathematics</i> , has set Level 3 as the provincial standard.
Level 4 (80–100%)	The student has demonstrated a very high to outstanding level of achievement. Achievement is <i>above</i> the provincial standard.
Level 3 (70–79%)	The student has demonstrated a high level of achievement. Achievement is <i>at</i> the provincial standard.
Level 2 (60–69%)	The student has demonstrated some of the required knowledge and skills. Achievement is <i>below, but approaching</i> , the provincial standard.
Level 1 (50–59%)	The student has demonstrated a passable level of achievement. Achievement is <i>below</i> the provincial standard.
Below Level 1/ Below L1	The student has not demonstrated sufficient achievement of curriculum expectations (below 50%).
No Data	Students who did not have a result due to absence or other reasons.
English Language Learners	Students who have been identified by the school in accordance with <i>English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12</i> (2007).
Students Receiving One or More Special Provisions	Students identified by the school as receiving special provisions. Detailed information about special provisions is available in EQAO's <i>Guide for Accommodations and Special Provisions</i> .
Students with Special Education Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students whose sole identified exceptionality is giftedness are not included.
Students Receiving One or More Accommodations	Students identified by the school as receiving accommodations. Detailed information about accommodations is available in EQAO's <i>Guide for Accommodations and Special Provisions</i> .
N/R	"Not reported" indicates that the number of students participating (fewer than 10 in a group) or responding to the Student Questionnaire (fewer than six in a group) is so small that identification of individual student results might be possible; therefore, results are not reported.
N/D	"No data available" is used to indicate that there were no students in the course for the years specified.
W	Results are being withheld by EQAO. For further information, please contact the school principal.
EC	Due to exceptional circumstances in 2015, provincial data are unavailable to report provincial results.
NP	Non-participating indicates that due to exceptional circumstances, some or all of the school's or board's students did not participate in 2015.
