Ontario Secondary School Literacy Test, March 2012

School: Loyalist C & VI (924130)

Board: Limestone DSB (66206)

EQAO is pleased to provide you with the results of the March 2012 Ontario Secondary School Literacy Test (OSSLT). This report includes results for the current year as well as contextual and attitudinal information to help you conduct in-depth analyses of student achievement.

By assessing all students in our education system at key stages in their education, EQAO’s provincial testing program has been providing objective and reliable data that are an independent gauge of student learning. These data help provide a clearer picture of student progress and serve as a solid foundation upon which parents, policymakers and school and school-board staff can base their strategies to support students in their learning. In particular, EQAO data play a critical role in helping school teams identify areas of student strength, target areas requiring support, and plan for improvement. At the school-board level, EQAO data are used by directors of education to create annual school-board reports and by trustees to establish multi-year school-board plans.

Of course, we have to keep in mind that EQAO data are just one part of the picture. Used in conjunction with other achievement information—such as report card grades and classroom assessment results—the OSSLT data are a powerful tool that helps educators, parents and students identify achievements, challenges as well as strategies for improvement. In an increasingly knowledge-based economy, literacy is a critical foundation for success in school and life outside school. For this reason, the OSSLT is a particularly valuable measure of whether Ontario students have acquired the fundamental reading and writing skills up to the end of Grade 9.

At EQAO, we are proud to support public accountability in education through our province-wide testing program and our strong partnerships with educators, school-board teams and parents. We hope that you use the powerful information contained in this report to help your students reach their highest potential.

Sincerely,

Marguerite Jackson

PREVIOUSLY ELIGIBLE STUDENTS, MARCH 2012: PARTICIPATION RATE AND ACHIEVEMENT RESULTS

Percentage of Eligible Students Who Participated Fully

Percentage of Fully Participating Students Who Were Successful

TIPS

Each school is unique. To appreciate the distinctive character of a school, look at the contextual information to understand the features and characteristics of the community it serves.

This test captures the performance of students at one point in time each year. Consider the results along with other information about students' performance.

Exercise caution when interpreting results for small schools as differences may look exaggerated. For example, in a group of 30 students, a difference of 10% represents only three students.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students fully participated, because it might be possible to identify individual students.

WHAT IS IN THIS REPORT?

This report shows how well students at this school have met the minimum standard for literacy to the end of Grade 9 as set out in *The Ontario Curriculum*.

This report includes

- ◆ results for this school compared to the board and province;
- ◆ information about the characteristics of the students who participated.

Specifically, you will find

- ◆ summary graphs showing participation and success rates;
- ◆ detailed tables and graphs showing results for various groups of students, e.g., by gender, English language learners;
- ◆ student questionnaire results and
- ◆ an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences among this school, the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the school results.
 - Are these results consistent with what you would expect?
 - How do these results compare to the provincial results?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to the school principal or the school council chair about the goals for improving student performance.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments.

Ontario Secondary School Literacy Test, March 2012

EXPLANATION OF TERMS

First-Time Eligible Students	First-time eligible students typically entered Grade 9 during the 2010–2011 school year. These students (and any others who were placed in this cohort) were required to write the Ontario Secondary School Literacy Test (OSSLT) for the first time in March 2012. First-time eligible includes all students in the first-time eligible cohort who are working toward an Ontario Secondary School Diploma (OSSD).
Previously Eligible Students	Previously eligible includes all students who were absent, deferred or not successful during a previous administration, and who are working toward an OSSD.
All Eligible Students	This method of reporting provides percentages based on all students in the cohort who are working toward an OSSD. The only students excluded are those who are not working toward an OSSD (exempt students).
Fully Participating Students	This method of reporting provides percentages based on students for whom there is work for both sessions of the administration of the OSSLT and who were assigned an achievement result (successful, not successful). Students who are not working toward an OSSD, those who were absent and those who were deferred are excluded.
Successful	Students who fully participated in the OSSLT and received a score that met the expected standard.
Not Successful	Students who fully participated in the OSSLT and received a score that did not meet the expected standard.
Absent	Students are deemed to be absent if there is no work for one or both sessions of the administration.
Deferred	Students' participation in the OSSLT can be deferred under several circumstances, as outlined in EQAO's <i>Guide for Accommodations, Special Provisions, Deferrals and Exemptions</i> . A student is categorized as deferred only if the school indicates a deferral. If a student completed any portion of the OSSLT, he or she is not categorized as deferred.
OSSLC	Students are placed in this category of reporting if the school indicated that the students would be fulfilling the literacy requirement through the Ontario Secondary School Literacy Course (OSSLC). For details about the OSSLC, see the Ministry of Education Web site (www.edu.gov.on.ca). If a student completed any portion of the OSSLT, he or she is not categorized as OSSLC.
Exempted	Students can be exempted from the OSSLT only if they are not working toward an OSSD. A student is categorized as exempted only if the school indicates that the student is exempted. If a student completed any portion of the OSSLT, he or she is not categorized as exempted.
English Language Learners	Students who have been identified by the school in accordance with <i>English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12</i> (2007).
English Language Learners Receiving Special Provisions	English language learners identified by the school as receiving special provisions. Detailed information about special provisions is available in EQAO's <i>Guide for Accommodations, Special Provisions, Deferrals and Exemptions</i> .
Students with Special Education Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee (IPRC), as well as students who have an Individual Education Plan (IEP). Students whose sole identified exceptionality is giftedness are not included.
Students with Special Education Needs Receiving Accommodations (excluding gifted)	Students with special education needs identified by the school as receiving test accommodations. Students identified as gifted are not included. Detailed information about accommodations is available in the Ministry of Education Policy/Program Memorandum No. 127 and in EQAO's <i>Guide for Accommodations, Special Provisions, Deferrals and Exemptions</i> .
N/R	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore results are not reported.
N/D	"No data available" is used to indicate that there were no students in the group or year specified.
W	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
